

New Training Center Online for Fall Semester

-See Page 2 for Class Information

Memo to Members

by Larry Mazzola
Business Manager

As you can see from the front page of this issue, the big news for Local 38 is that the new Joseph P. Mazzola is scheduled to open for the fall semester, which begins in just over a month.

We will be holding a Grand Opening/Dedication for the new school, as well as a members' open house in September. Watch this paper, or the Local 38 website for specific dates.

A GREAT ACHIEVEMENT

In the meantime, I want to congratulate the Local 38 Training Department, Training Director Steve Mazzola and Curriculum Director Liam Devlin on the work they have done on the school.

It has been six years since we purchased and then began gutting the building. During that time the Training Department hasn't missed a beat--operating a full schedule of Journeyman and Apprentice training while designing and managing the construction of a state of the art training center.

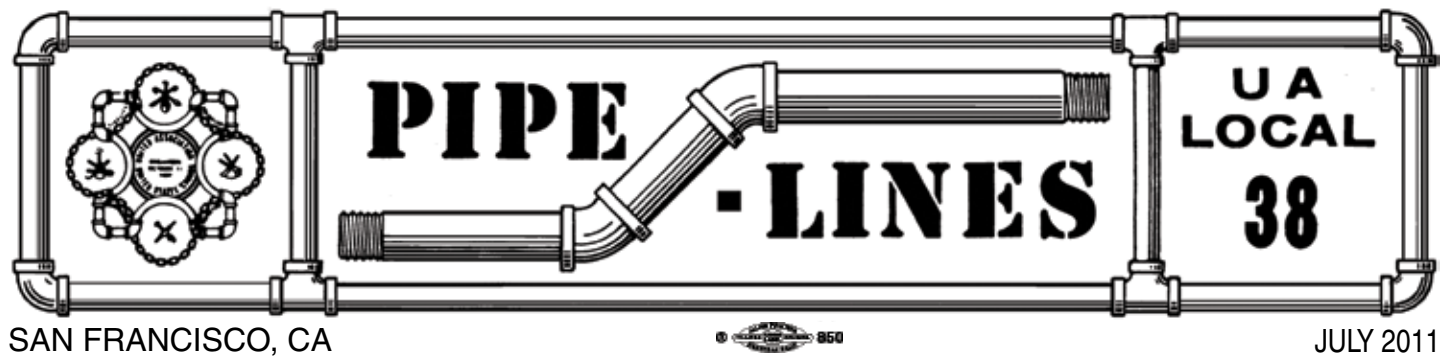

VITAL TO FUTURE

Our Market Street facility--first named the Hubert H. Humphrey Training Center and then the Joseph P. Mazzola Training Center--was opened in 1978 and was a first class facility.

But there have been a lot of changes, both in educational technology and in our trade in the past 35 years.

Orbital welding, Computer Aided Design and 3D piping, computerized controls and modernized

More than 100 golfers gathered in front of the San Geronimo Golf Course to kick off the 22nd Annual Local 38 Charity Golf Tournament, held last month.

The 22 Annual UA Local 38 Charity Golf Tournament

New Location, Same Rousing Success

Golfers attending the 22nd Annual UA Local 38 Charity Golf Tournament last month found themselves in a new location, but enjoying the same great day of golf and generosity that has become a tradition at the event.

This year the 120-plus tournament participants gathered at the San Geronimo Golf Course. Located five miles west of Fairfax in beautiful west Marin County, the course is nestled in a valley surrounded by wooded hills and some of Marin County's lushest farm and dairy land. The tournament was moved to the San Geronimo course after its home for the past eight years, the Adobe Creek Golf Course in Petaluma, was plagued with financial troubles.

"I'm really glad that we were able to relocate our tournament to one of the most beautiful courses in the Bay Area," said Assistant Business Manager Larry Mazzola, Jr., who chairs the Golf Tournament Committee. "This has always be a great event for us, and playing San Geronimo makes it even better.

"I want to thank everyone who took part in the tournament, either as a player, a hole sponsor or a donor," he continued. "I am always

impressed by the concern and generosity of the people in the labor movement. Not only was this really a fun day playing golf, but we were able to raise money for an important charity as well.

The proceeds from Local 38's tournament goes to a different charity each year. In the past the tournament has raised funds for everything from the renovation of

Classes Set For New Training Center

Local 38 Journeymen and Apprentices will experience state-of-the-art trade and educational technology when they attend their first semester at the new Joseph P. Mazzola Training Center, beginning August 22, 2011.

The new Training Center is located at 2660 Newhall Street, at the corner of Egbert and Newhall in San Francisco. The building formerly housed the offices of the San Francisco Building and Construction Trades Council, as well as numerous other unions, but was completely gutted and renovated to house the training facility.

The Center includes 36,000 square feet of classroom and shop facilities, as well as new offices for the Training Department.

"This new Training Center is a great accomplishment for Local 38 and our Training Department," said Local 38 Business Manager Larry Mazzola, Sr. "It will keep Local 38's Journeymen and Apprentices in the forefront of the trades, and insure that they will be among the best trained and educated workers available."

NEW CLASS OFFERINGS

Among the first new classes to take full advantage of the new facility and its technology will be classes in beginning and advanced AutoCAD and CAD Mech. Instructors Paul Renhoud and Mike Galliano will be using a top-of-the-line Computer Aided Design (CAD)

classroom to instruct Local 38 members on the use of AutoCAD and CAD Mech (a 3D piping program) for detailing plumbing and mechanical drawings.

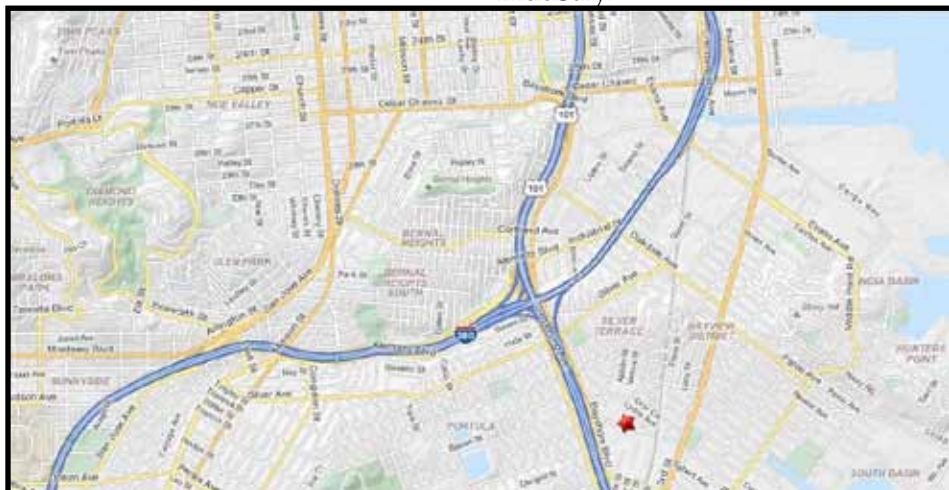

The first day of the Fall 2011 Semester for Local 38 Apprentices at the San Francisco and Santa Rosa Training Centers will be Monday, August 22, 2011. Apprentices should be on hand for the first night of classes at their respective Training Center. If you have questions about the dates, times and locations of your classes, call the Local 38 Training Department at (415) 562-3838 BEFORE the first night of class.

The new school also has a fully interactive rigging structure, which will play an integral role in the new Crane Signal Person Certification class taught by instructor Kevin Dimic. At the conclusion of the class students will be eligible to take the NCCC Crane Signaler Certification exam for an additional fee.

FREE BENEFIT

Local 38's Supplementary Journeyman classes are available free of charge. The classes are designed to provide hands-on instruction in the latest tools, technology and techniques available to pipe trades workers in the field. All classes are filled on a first-come, first-served basis. The Training Department will make every effort to accommodate any overflow in Journeyman classes, but space is limited, so return your Registration Form as soon as you can.

The deadline to register for Supplementary Journeyman Classes for the upcoming Fall 2011 semester is Wednesday, August 10, 2011. If you do not see a class covering a specific subject of interest, please feel free to contact the Training Department at (415) 562-3838. The Training Department is constantly reviewing and revising the current class offerings to meet the changing needs of our members and the industry.

The new Local 38 Training Center is:
The Joseph P. Mazzola Training Center

Journeyman Classes FALL 2011

The following are the Supplementary Journeyman Training Classes that will be offered through the Local 38 Training Department during the 2011 Fall Semester. To register, please contact the Local 38 Training Department by telephone at 415-562-3838, by Wednesday, August 10, 2011. Please indicate which classes you are interested in attending. Classes will begin as indicated below:

SAN FRANCISCO CLASSES

Beginning CAD Mech/ Auto CAD- Starts Tuesday, 8/23/11

NEW This course is designed for students with no previous experience in Auto CAD or CAD Mech. Students will be introduced to CAD programs and be given assignments using these programs. Students need basic computer skills, as well as a knowledge of drawing and detailing to take this class. Instructor: Paul Rynhoud

Advanced CAD Mech, and AutoCAD – Starts Monday, 8/22/11

NEW This two-night course (Mondays & Wednesdays) offers instruction in CAD Mech and AutoCAD drawing, including architectural drawing and detailing mechanical systems. Also offered is instruction on the Quick-Pen 3-D Piping Drawing Program. Prerequisites for this course: basic computer skills and knowledge of Microsoft Windows. Prerequisite is basic experience in AutoCAD/CAD Mech. Please speak with instructor to determine if you have the prerequisite skills for this class. Instructor: Mike Galliano.

Backflow Testing Certification/ Backflow Survey Specialist/ Valve Repair – Starts Monday, 8/22/11

This two-night course (Mondays & Tuesdays) will train Journeymen in:

Backflow Certification – the testing of backflow devices so student will qualify for an AWWA Certification; or

Backflow Survey Specialist – course will certify and instruct on how to survey buildings for the proper backflow devices. You must have a Backflow Testing Certification in order to take this course; or

Backflow valve repair – course will instruct on how to repair backflow prevention devices.

The course will conclude with a proctored examination that may be conducted on a Saturday date to be determined. Instructor: Dan McCormick III

Boiler Controls & Code – Starts Wednesday, 8/24/11

This course includes instruction on basic electricity, furnaces, hydronic heating, steam heating and related electronic controls and systems including hands-on instruction using the Hampden Steam Boiler Trainer. Instructor: Bill Flanery

HVAC/R– Starts Monday, 8/22/11

This two night course (Mondays & Tuesdays) will focus on Beginning HVAC/R Electricity and Controls including, different types of systems, components, troubleshooting, and operation and maintenance. Instructor: Rich Beaumont.

HVAC/R – Starts Monday, 8/22/11

This two-night course (Mondays & Tuesdays) will focus on Advanced HVAC/R Electricity and Controls including: maintenance & operation, troubleshooting and discussions on new technologies in the air conditioning and refrigeration fields. Instructor: James Comte.

Medical Gas Certification – Starts Wednesday, 8/24/11

This course will train students in Medical Gas technology, using the 2005 NFPA 99C manual, so they will qualify for their Medical Gas Installation and Brazing Certificate from National, ITC. Required Textbook: NFPA 99C Gas and Vacuum Systems 2005 Edition, \$42. Instructors: Steve Robertson & Chris Beering.

Welding Course – Starts Monday, 8/22/11, Instructor Available Monday Evenings

Students will be given projects designed to simulate real jobsite situations. Projects will start with spool sheets and drawings and take the students through all steps including installation. Instructor: Bud Marryatt

Welding Course – Starts Wednesday, 8/24/11, Instructor Available Wednesday and Thursday (Day Classes)

This course provides multilevel instruction in all techniques of welding towards obtaining a UA Welder Certification. Weld testing conducted at our facility. Instructor: Steve Costerouse

Green Systems Awareness Certification –Starts Tuesday, 8/23/11

This 20-hour course deals with understanding of building's systems and their interrelation with each other to create a single building system that conserves our resources, is sustainable and lowers maintenance costs. The curriculum discusses HVAC, Refrigeration, Plumbing and electrical components. Required Textbook: Green Awareness, \$36. Instructor: Bill Flanery

Crane Signal Person Certification- Starts Wednesday, 8/24/11

NEW This course is designed to teach proper crane signaling techniques. Class will include both hands on and discussions to teach the safety aspects of signaling. At the conclusion of the class there will be an NCCCO Crane Signaler Certification exam offered for a fee. Instructor: Kevin Dimic

SANTA ROSA CLASSES

HVAC/R – Starts Tuesday, 8/23/11

This two night course (Tuesdays & Thursdays) will focus on Air Conditioning Systems and Air Quality. Class will include hands on projects and class room discussion. Instructor: Rolf Stevens

HVAC/R – Starts Tuesday, 8/23/11

This two-night course (Tuesdays & Thursdays) will focus on Advanced Air Conditioning and Refrigeration. Students will participate in discussions and projects related to the installation, operation and maintenance of systems. Instructor: David Copping

Medical Gas Certification – Starts Wednesday, 8/24/11

This course will train students in Medical Gas technology, using the 2005 NFPA 99C manual, so they will qualify for their Medical Gas Installation and Brazing Certificate from National, ITC. Required Textbook: NFPA 99C Gas and Vacuum Systems 2005 Edition, \$42. Instructors: Steve Christani & Brian Ancic

Welding Course – Starts Thursday, 8/25/11

This course provides multilevel instruction in all techniques of welding towards obtaining a UA Welder Certification. Weld testing conducted at our facility. Instructor: Brian Ancic

Welding Course – Starts Monday, 8/22/11, Instructor Available Monday and Tuesday (Day Classes)

This course provides multilevel instruction in all techniques of welding towards obtaining a UA Welder Certification. Weld testing conducted at our facility. Instructor: Steve Costerouse

Golf Tournament...

Mission Dolores to the fight against Sudden Infant Death Syndrome (SIDS). This year proceeds from the tournament will go to the University of California, San Francisco Benioff Children's Hospital, one of the country's leaders in the research and treatment of children's cancer. Tournament funds are raised through a number of different methods,; players entrance fees,

charitable donations, and a raffle, which is held following the dinner.

"I want to thank everyone who was involved in organizing this tournament," said Local 38 Business Manager Larry Mazzola, Sr. "Particularly Larry Mazzola, Jr. and Pete Machi. They do a lot of hard work each year to make sure that the tournament is a success, both for the participants and for our chosen charity."

PUTTING CONTEST

(Closest to hole on third putt)

Richard Walczrk

The spectacular San Geronimo Golf Course was the location for last months 22nd Annual Local 38 Charity Golf Tournament. Pictured here are (above) the putting contest, (left) the truck that could have been won on the \$30,000 hole-in-one hole; (below left) golfer Kevin Dimic hitting out of a trap, and (bottom right) Local 38 Assistant Business Manager Larry Mazzola, Jr. handing out the final raffle prize, a 32-inch television, to winner Mike Swanson, the Business Manger of Local 467.

**Saturday, September 17, 2011 - 11 am to 4 p.m.
Silverado Resort & Spa
1600 Atlas Peak Road, Napa**

The 42nd Annual UA Local 38 Member and Family Picnic will again be held at the Silverado Resort & Spa in Napa, the site of last year's successful and popular gathering.

The Picnic is scheduled for Saturday, September 17 and will be held in "The Grove" at Silverado, the same location as last year. The Picnic spot, which borders the golf course, includes a large grassy picnic area, perfect for dining and children's activities, and the fenced patio/stage area where the annual membership raffle is held.

Silverado does offer some additional activity options, including Bocce Ball, a spectacular 18 hole golf course (Local 38 members will be charged a reduced rate of \$80, for greens fees), and swimming.

Because the event is being held at a private facility, we are being charged on a per person basis. We need to strictly enforce the limitation that the Picnic be made available only to **members and their eligible dependents**, as listed on their Local 38 Health and Welfare Enrollment Form on file with the Local 38 Trust Fund office.

**Room Reservation
Deadline
August 24, 2011**

Local 38 members are responsible for making their own individual reservations at the Silverado Resort & Spa.

The easiest way to make your reservations is online at www.silveradoresort.com. Simply follow the instructions below and you will be able to set up your reservation at the reduced Local 38 Group Rate of \$119 per night for a Resort Guest room only. If you upgrade your room, you will be charged at the public rate.

ONLINE RESERVATIONS

Go to www.silveradoresort.com, and:

- Click "Reserve a Room"
- Type "LOCAL38" into Group Code box
- Enter your blocked dates which are September 15 - 17, 2011
- Then click Continue button
- Continue to next page to finalize the reservation

MAIL, FAX OR PHONE RESERVATIONS

Fill out the accompanying reservation form and mail or fax you information to:

Reservation Department
Silverado Resort and Spa
1600 Atlas Peak Road
Napa, CA 94558
Fax: (707) 257-5425
Phone: (800) 532-0500

ACCOMODATIONS

The Local Union 38 Picnic dates for rooms at the Silverado Resort are for arrival on Thursday, September 15, Friday, September 16 or Saturday, September 17, 2011 and departure on Sunday, September 18, 2011.

**ARRIVALS AND
DEPARTURES**

Check-in time at Silverado is 4:00 p.m.; earlier check-in is welcomed if your accommodations are available. Check-out time is 12:00 Noon. Additional charges are assessed to those staying beyond check-out time. Full locker room facilities are available for early arrivals and late departures.

RESORT FEE

There is a \$20.00 plus tax per room per night Resort Fee includes:

- Bell gratuities
- On property transportation gratuities
- Complimentary self and valet parking
- Unlimited personal WIFI access
- Unlimited local calls

Memo...

Continued from page 1

HVAC/R systems are just a few of the new technologies facing our members and their instructors.

Our Training Department did an outstanding job of keeping abreast of these changes, even in our old facility. But our new Training Center provides the opportunity to teach the latest technology with the latest educational equipment.

State-of-the art shops and labs are matched only by state of the art classrooms.

THE BACKBONE OF LOCAL 38

I have always believed that training is the backbone of Local 38. When I sit across the bargaining table from signatory contractors, their priority is always to have the best trained, best educated workers in the pipe trades.

That's why our contractors are so supportive of our apprenticeship and journeyman training programs. They know that the skill level of their workers gives them an advantage over their non-union counterparts.

NEW SCHOOL, NEW CLASSES

If you look at the journeyman class schedule on Page 3, you will see that we are offering several new classes this fall. Now that we are able to take advantage of our new facilities, we can offer classes like beginning and advanced CAD Mech 3D piping drawing, and Crane Signaling Certification.

When we hold the grand opening and the members open house for the school, we will give you lots more coverage and information about the new facility and the educational opportunities it offers.

But in the mean time, sign up for classes and take advantage of our instructors' expertise, and of our brand new school.

GOLF TOURNAMENT

I want to say thank you to everyone who was involved in the Local 38 Charity Golf Tournament last month. The tournament is always great, but it was particularly nice this year because of the location.

The San Geronimo Golf Course is one of the most beautiful I've seen. The hills of west Marin are spectacular, and it made a great day of golf even better.

I also want to thank all the sponsors, donors and players for their support of our tournament. This year the proceeds will go to UCSF Benioff Children's Hospital. I'm proud of the generosity of everyone involved in the tournament.

And thanks to Larry Mazzola Jr., and Pete Machi for their hard work organizing the tournament.

LOCAL 38 PICNIC

On pages 4 & 5 of this Pipelines you will find information about the upcoming Member and Family Picnic, which we're holding again this year at Silverado. The picnic will be Saturday, September 17th.

The information includes instructions on how to reserve a room if you are planning on staying over before or after the picnic. Read it carefully, and make your reservations soon. I look forward to seeing you there.

Local 38 Mail Box

Boys' Town Says Thanks

Dear Mr. Mazzola:

Thank you for your involvement in our annual gala in support of Boys' Towns of Italy. The evening was a huge success and we are most appreciative of your participation.

A big thank you from Boys' Towns of Italy.

Sincerely,
Mary O'Shea

Moving the City in the Right Direction

Dear Mr. Mazzola:

Thank you for the kind words you sent congratulating me on the occasion of my inauguration. I could not have taken on this challenging moment of opportunity without the invaluable partnership of my many colleagues and friends. The outpouring of support I have received has been heartening and inspiring. In just a few, short months, I have come to appreciate San Francisco more than ever before, and I am eagerly taking on the responsibility of stewarding our great City to keep it moving in the right direction.

In the months ahead, I will be working hard to balance our City's budget, reform pensions, keep America's Cup plans moving forward, implement our important local hire law, and make sure that our City is safe, solvent and successful. I will need your support as we confront the many challenges ahead, and I look forward to celebrating our shared successes as well.

Thank you again, for your support.

Sincerely,
Edwin Lee, Mayor

Thanks For Giants Tickets

Dear Mr. Mazzola,

I would like to take the time to thank you and Local 38 for the Giants tickets on July 5th. We had a great time and the seats were excellent too. The day also happened to

It's a new world out there, and we at Local 38 are determined to become part of the electronic age, whether we like it or not. For years we have communicated with our members through regular mail. When it came time to announce a meeting or inform the members about a special issue, we always sent a letter.

Not that there's anything wrong with the mail. We continue to do the vast bulk of our business by mail. But in some cases it is quicker, easier, and far less expensive, to be able to send an e-mail to members.

At least it would be easier, quicker and cheaper if we had e-mail

be my birthday!

Thanks,
Paul Swartfager

Building Trades Says Thanks

Dear Larry,

On behalf of the San Francisco Building and Construction Trades Council (SFBCTC) we wish to thank you for your consideration and generous support of the eighth annual Vegas in San Francisco at the Intercontinental Hotel on Friday, May 20, 2011.

The event was a huge success. With your help we raised over \$106,000 toward the SFBCTC POWER PAC, the SFBCTC POWER PIC and the SFBCTC Member Education Fund.

Proceeds from this event will go toward furthering the pursuits of the San Francisco Building & Construction Trades Council in the coming calendar year.

We hope you enjoyed the evening and we look forward to seeing you again next year.

Best regards,
Mike Theriault
Secretary-Treasurer

Building a Better and Stronger California

Dear Larry:

Thank you for your generous contribution to my campaign. I am appreciative of your support of my re-election effort which will enable me to continue working to enact just laws for a better and stronger California.

Despite the recession and record setting budget deficits, we've been able to accomplish a great deal since arriving in the Legislature. I received bipartisan support for 90% of the reforms I authored that were signed by the Governor including legislation to save the state millions of dollars annually, take repeat DUI offenders off the road and provide relief for victims of the San Bruno Disaster.

As chair of the Majority Caucus in the Assembly and as a member of Speaker Perez's leadership team

I've been responsible for negotiating key issues and guiding legislative priorities. This year I'm working hard to bring businesses into the 19th Assembly District through legislative and local efforts in addition to helping the unemployed through job fairs and skill development events. I'm continuing my efforts to educate fellow legislators on the critical industries of "bio-tech" & "high-tech" through site visits and informational hearings.

I have been pleased to speak with many community members throughout the past years at town hall meetings, "Java with Jerry" events, and sidewalk office hours at local farmers' markets. The input you and others have provided is invaluable; it enables me to stay in close touch with the community and to effectively address your concerns in Sacramento.

It has been an honor to serve as your state Assembly members. I look forward to continuing our work to achieve positive change for California.

Best regards,
Jerry Hill

Housing Coalition Appreciates Support

Dear Local 38,

On behalf of the Coalition for Better Housing we wish to thank you for your consideration and generous support of the ninth annual Day at the Races event at Golden Gate Fields on Friday, June 10, 2011.

Proceeds from this event will go toward furthering the pursuits of the Coalition for Better Housing in the coming calendar year.

We hope you enjoyed the event and we look forward to seeing you again next year.

Best regards,
Neveo Mosser,
President
Brook Turner
Executive Director
